

Every 2160 years there is a major change and “step-up.” We are honored to be a part of the movement that adds the Masters Aquarian Age perspective to the astrologies of previous ages (Vedic, Piscean Age Aries through Pisces, for example). The new astrology does NOT replace previous astrologies. Instead, it adds a new perspective. The new astrology is not completed this early in the Age. A structure is created and during the remainder of the Aquarian Age, so much more will be added. Changes that Masters Aquarian Age Astrology™ brings include:

- ▶ Astrology comes to the forefront of our global consciousness and shows us how we can have PEACE ON EARTH
- ▶ We expand consciousness to contemplate the 25,920-year "Master Sunday" and what we develop in each Age
- ▶ We incorporate the energies of The Galactic Sun for maximum soul development
- ▶ As we move up this step on the Evolutionary and Consciousness ladder from the Zodiac Animal Signs of the Hue-man Kingdom, we step into the Initiate Kingdom Systems (Aquarius is now "Ob Server, the Neuron Surfer™" – the Nervous System)
- ▶ The Systems of The CrystaLine BrainTrain™ are divided into Seats, Parts, and Sub-parts, giving us greater detail
- ▶ The Sun, Moon, and Planets that were “good” or “bad” are now CharacterBuilders™ and offer choices in behaviors
- ▶ We always look at the Earth in the Chart, so that we recognize our Earth Purpose
- ▶ We see the Sun, the Earth, and the Moon in four-fold natures of emotional, mental, physical, and spiritual
- ▶ We use the Asteroids ("Atomic Power Tools™") in Chart Delineations and eventually add the objects outside our Solar System

- ▶ The Aquarian Age starts with the first half of its own sign, makes the circular journey, and ends with final half of its own sign; we start looking at ourselves and the part we play on the stage of life; we stop looking at others to lead or blame; Piscean and other astrologies start with next sign, as being led by another
- ▶ We develop our centered Soul and our 12 Selves, such as Self-Motivated, Self Responsible, etc. (Masters S-Elves™)
- ▶ We stop moving in only the Counter-Clockwise direction (Anti-Christ) and observe ourselves as both Energy and Matter Fields
- ▶ We use 34 aspects (instead of 8) in our delineations and these indicate many more activities from which we can choose our behavior (Granny Lee's Spectacles™)
- ▶ We continue using "houses" when doing Piscean Age Astrology, but in Aquarian Age Astrology, we work with earning Crowns on our 12 heads as featured in "CrownTown™"
- ▶ We use the East and West Points ("Let It All Hang Out™" and "Attention") as well as the Vertex ("VeraTex™") and Anti-Vertex ("Katmandu")
- ▶ We view our CharacterBuilders™ in layout patterns as presented as fashions designed by Pat Turner™
- ▶ We use the Activity Modes "Apt, Tie-and-Wrap (Trap), and Scrap™" to help us bring potentials to reality and to eliminate negatives
- ▶ By working with the Vehicles "Quick, Smart, EZ, & Aware™" and their extremes (each has two extremes), we are able to better recognize and balance our behaviors as well as quickly and easily determine the message behind the behaviors of others
- ▶ We grasp the hidden meanings of the 12-Step Path of Holy Days (Holidays)
- ▶ The Fixed Stars "LaserLights™" are included in our charts as are 'Messy Missy's Midpoints™ (interactions among the CharacterBuilders™)
- ▶ DaisyDaze™ and Num-Num Numbers Lover™ reveal birth day and destiny number
- ▶ We use Ophiuchus, the Serpent Bearer as #13 on the Ecliptic

- ▶ By observing Monica Moonbeam's™ CrisisCross™ Roller Coaster Ride in our charts, we can better anticipate the ups and downs of the Moon's Nodes
- ▶ We grasp the effects of the nodes of all the planets
- ▶ Eclipso The Clippers™ teaches us to better understand how eclipses affect us
- ▶ We use N.Stan™ the Body reader to help us immediately see how others affect us
- ▶ The Con-Trolls™ show us the energies at work in our lives as we visit or live in various locations
- ▶ We gain an understanding of the meaning of the 144,000 "Chosen" of God

The Future – During the 2160-year Aquarian Age:

- ♥ Educational institutions will use Astrology to place students with compatible teachers
- ♥ We will use charts to help us select friends, lovers, and mates
- ♥ Astrology will be used by couples to help plan the births of children in order to facilitate compatible family dynamics
- ♥ Individuals will stop being victims, which will stop victimization (can't have one without the other)
- ♥ Many more individuals will recognize they are on the Path of Initiation
- ♥ Astrological charts will be so detailed that everyone's secrets will be in the open; this means child predators and molesters, murderers, and other criminals cannot hide; this means representatives in our governments cannot cover up their corruptions and activities. All will be revealed.
- ♥ People will be in careers in which they are happy and prosperous
- ♥ and much more
